**PEDIATRICS REVIEW AND EDUCATION PROGRAM**

In this volume we have brought together all ten issues of the sixth year of publication of *Pediatrics in Review*. These articles and abstracts were developed to help readers achieve educational objectives set for the Continuing Education Program of the American Academy of Pediatrics. We believe that they contain material of use to a wider readership than members of the Academy who subscribe to *Pediatrics Review and Education Program (PREP)* such as residents, nurses, family physicians, and other clinicians. We hope that you find them useful.
